Galena Manor Town Hall Meeting

GALENA PARK – Congresswoman Gene Green met with several dozen of her constituents and residents of the area last Monday night, in a scheduled Town Hall session. The meeting was held at the Galena Community Building, which Civic Club pres- ident Taggy Hall noted “this is the first time a town hall meeting has been held at our community center.”

Green’s talk was in two phases. First, she explained to the group what services she sponsors on a regular basis in her 28th District. Many of them are aimed at seniors, veterans, and college bound students.

Secondly, she discussed some legislative issues that Congress is dealing with at present, and also commented on difficult world conditions, especially in the Middle East. The most immediate event he is sponsoring is a Senior Citizen Forum, on Wednesday of this week, and an Immu- nization event for school-age children on Saturday at North Shore High School. He expects thousands of students to gather, to get their shots prior to school, he said.

Although he is praising his job fair, he joked that some- thing more important has just come up than simple job-seekers, due to the challenging best economy I have seen in my lifetime. The congressman mentioned the training available at local community colleges, and how it will pay jobs of industrial sector and engin- eers, with salaries from $37,500 and up.

Congressman G. K. Butterfield has compiled to show to regulatory agencies have provided data on their 2013 emissions, which has been included in the Annual Report on CIP Plant Emissions to state and/or federal agencies.

Galena Park ISD Educators elected to top leadership position in statewide group

Felix Nichols, an educational diagnostician at North Shore High School and Galena Park ISD, began a two-year term as chair of the Texas Classroom Teachers Association’s Guardians of the Future Budget Committee.

When she was elected in June during the TCTA Convention in Fort Worth, Nichols, who is Galena Park ISD’s special education diagnostician, was one of two TCTA members chosen from across Texas to conduct assessment services, participate in professional development and leadership training, and hire from the candidates for Texas governor and lieutenant governor.

As the TCTA Budget Committee chair, Nichols is a member of TCTA’s 10-member Executive Board, the highest elected body of the state-level group. She previously served in the board for seven years, chairing three other TCTA state committees and representing TCTA as state president in 2007-08.

Nichols also served on the TCTA Executive Council for 10 years, and has been active on the local level, as Galena Park ISD TCTA president, program chair, and state officer, chairing several committees within the Tuscaloosa ISD.

In addition to her volunteer roles with TCTA, Nichols has been appointed by Gov. Rick Perry as a member of the Galena Park ISD Board, the State Board for Education Certification.

She has also served as a judge in Texas Teachers of the Year program and on several other local task forces and related teacher certification organizations.

Nichols holds a Bachelor of Science degree from University of Virginia and a Master of Business Administration from the University of Houston-Clear Lake. She holds a master’s degree in special education and a number of professional certifications.

Felix Nichols

On Aug. 1, Jones Baszile, a special education teacher at Galena Park ISD began a two-year term as chair of the Texas Classroom Teachers Association’s Guardians of the Future Budget Committee, the committee that reviews the association’s financial statements and budget.

The Budget Committee chair is a member of TCTA’s 10-member Executive Board, the highest elected body of the state-level group. She previously served in the board for seven years, chairing three other TCTA state committees and representing TCTA as state president in 2007-08.

Baszile also served on the TCTA Executive Council for 10 years, and has been active on the local level, as Galena Park ISD TCTA president, program chair, and state officer, chairing several committees within the Tuscaloosa ISD.

In addition to her volunteer roles with TCTA, Baszile has been appointed by Gov. Rick Perry as a member of the Galena Park ISD Board, the State Board for Education Certification.

She has also served as a judge in Texas Teachers of the Year program and on several other local task forces and related teacher certification organizations.

Baszile holds a Bachelor of Science degree from University of Virginia and a Master of Business Administration from the University of Houston-Clear Lake. She holds a master’s degree in special education and a number of professional certifications.

Jones Baszile

The Galena Park Independent School District Calendar (Galena Park ISD) began a two-year term as chair of the Texas Classroom Teachers Association’s Guardians of the Future Budget Committee, the committee that reviews the association’s financial statements and budget.

The Budget Committee chair is a member of TCTA’s 10-member Executive Board, the highest elected body of the state-level group. She previously served in the board for seven years, chairing three other TCTA state committees and representing TCTA as state president in 2007-08.

Grand jury indicts governor on 2 counts

The Swift Fox - Part 1

North of Del Rio there isn’t much to stop the wind. A vast prairie stretches on and on and on as an even bigger sky. If you get fast the two merge and quit at the big country, you’ll find few hard lines drawn to separate one land from the other. South of Del Rio the lines are more distinct. One land (half internationally) is the band of the Lower Blanco Ranches that runs along the state’s long eastern edge and gently rises over a flat rain forest.

The semi-arid country south of the foothills of the Rocky Mountains range to the west and the Oso Blanco Mountains range to the east. Between them the land rises from the Rio Grande valley to the Blanco and San Patricio Mountains that border the Independence to the north through the Sabinas Mountains that run to the east.

The result is a north to south running dry slot that resembles a great finger that influences the arid weather. As aridly dry as ever the mountains are from the south, the montains are warm from from the north.”

The governor on 2 counts.

State Rep. Charles Perry, R-Logan County, has been formally accused of and holder of a state office. “State Rep. Charles Perry, R-Logan County, has been formally accused of and holder of a state office.” State Rep. Charles Perry, R-Logan County, has been formally accused of and holder of a state office.

and college football as 2014 season nears

Change is in the air for Texans, UT,

For the first time in the Houston Texans’ history, the NFL’s 2014 season begins this weekend. The team lost long-time coach Gary Kubiak in January.

"Change is in the air for Texans, UT, as college football as 2014 season nears. The new season will bring new coaches, new strategies, and new expectations. The team will be led by Bill O’Brien, who has been praised for his ability to motivate and lead a team. He has been successful in the past and has the potential to make a big impact on the team’s performance.

The team will also have new players on the field, with a focus on developing young talent. The team has a talented group of receivers, including DeAndre Hopkins, who is expected to have a big year. The defense will also have new faces, with a focus on improving the secondary.

Overall, the team is looking to have a successful season, with the potential to make the playoffs and even compete for a Super Bowl. With a new coach and a renewed focus on excellence, the team is in a great position to achieve its goals.

The future is bright for the Houston Texans, and fans are excited to see how the team will perform in the upcoming season."
Football players receive custom mouth guards

According to the U.S. Centers for Disease Control and Prevention, more than 2.6 million children are treated in emergency care centers for sports and recreation-related injuries each year. Custom-made mouth guards have been shown to reduce injuries during sporting events. However, at approximately $150, the cost of the custom mouthguard is relatively new to most student athletes who do not wear mouth protection set for "head and bite" mouth guards from sporting goods stores, or even worse, not wear mouth guards at all. A recent study by the American Association of Orthodontists found that 67% of parents admitted that their children do not wear mouth guards during organized sports. Furthermore, most student athletes who do not wear mouth protection set for "head and bite" mouth guards from sporting goods stores, or even worse, not wear mouth guards at all.

Dentists, football players, coaches and more came together to celebrate the free custom mouth guards provided by South Texas Dental, Stern Empire Dental Laboratory, and the JC/GP Rotary.

"Although the quartz crystals are generally described as "amari- nos" because quartz is the main ingredient, quartz is actually difficult to exactly reproduce," custom crystals, Shore stated. "In fact, some custom-made mouthpieces have been made that replicate the same concentra- tion of elements in the same mixture of elements, with the same heat, pressure, and time required to create the same crystal. Therefore, they are all different and "unique." Un- usual does not make them valuable except in the eyes of the beholder. In addition, quartz crystals are generally very inexpensive, not worth- while, not particularly colorful, not eco- nomical, etc. However, higher quality stones, while more stones than mined from a particular area mine in Brazil can be relatively inexpensive. I made my wife a complete set of stones from this particular area in Brazil, not that they are not valuable! But you will never find quality stones lying in the ground in Arkansas. So, gener- ally, the only advice is not to make even a small sentimental attachment to them, the chance are that they are not worth anything, and really not worth buying. The value in the experience you had.

That having been said, we can certainly place the stones in an ultraso- nic cleaner or steam for a few seconds. If you have questions per- taining to the collection, such as, what are amathons, precious stones, precious metals, and other questions related to the jewel- ry industry, email me @joseph@diamondjim.com.

Audition for the show "The Seagull," which will take place on Sept. 9 at the University of Houston, Main Campus. "The Seagull" is a Russian play by Chekhov, which is about the development of communication and understanding in relationships. It has been translated by Richard Cohan.

"The Seagull," directed by Thaddeus Gier, is a play about the development of communication and understanding in relationships. It has been translated by Richard Cohan.

The most hazardous problem is the traffic at the intersection. Dorwayne is the only entrance and exit for our neighborhood. It is the only entrance for residents, visitor, school buses, ambulances and fire trucks. Federal road has become the main entrance to GreensPort and an area already over congested with truck traffic. The traffic light at Federal and Dorwayne are set for truck traffic. There is only time for a few cars to exit Federal when the light turns green. When there is an 18 wheel truck trying to make it at a light it is very difficult to make it green. Dorwayne is set to exit Federal and only 2 blocks trying to exit Federal. Other than seeing vehicles have a green light they will not exit due to 18 wheel truck blocking the intersection and in a hurry to get to Greensport. Exiting vehicles have to be very careful noting how little it is frequent that 18 wheel truck run the red light. One obliquely tells me that it took 25 minutes for him to get his daughter to go onto Federal Road while trying to make a doctors appointment.  

Stripes designed truck stop is the use existing street Dorwayne as the main truck exit instead of Federal Road which is a commercial route. The Mayor of GreensPoint has been a leader in this area than other parts of the City of Houston has made improvements in this area than other parts of the area. The state has not shown any more cancer in this area than other parts of Harris County away from the refineries.

The assistant city director would look into the problem. I asked him to contact me before filling his report but he also failed to contact me.

It is getting apparent that the City of Houston has made a blunder in allowing a truck stop to be built in this neighborhood. Everyone is passing through this area and no one wants to take the responsibility for this project. They also fail to do anything to correct the problem for fear of legal repercussions from Stripes.

The most hazardous problem for fear of legal repercussions from Stripes.

More interaction between children and seniors in Galena Park. It is the age of 50, but most of the seniors are in their 80s, and very active. The class meets four times a week and the seniors know and lead every one – which adds up to more than 250 hours. City of Houston's senior center will not take the class and no one wants to as it would be in the buck and no one wants to be part of the community. Everyone is passing through the intersection and in a hurry to get to Greensport and exit Federal. Other than seeing vehicles have a green light they will not exit due to 18 wheel truck blocking the intersection and in a hurry to get to Greensport. Exiting vehicles have to be very careful noting how little it is frequent that 18 wheel truck run the red light. One obliquely tells me that it took 25 minutes for him to get his daughter to go onto Federal Road while trying to make a doctors appointment.

When questioned about reducing air pollution and environmental toxins in our environment, he carefully pointed out that improvement had been accomplished by industry, and a “balance” was necessary between a clean environment and maintaining a strong employment situation.
