GALENA PARK – At a special meeting held last Monday, the City Council installed four new presidents for the coming year.サービス

The unusual 4-person installation was necessitated by the resignation of the president-elect, Paula Henney, to take another position. The board of the Rotary Club decided to ask four new people to assist them in the upcoming year’s activities. The 4-person group was cleared by the president of the president-elect, Paula Henney, to take another position.

The board of the Rotary Club decided that the four new presidents for the coming year should be installed. The 4-person group was cleared by the president of the president-elect, Paula Henney, to take another position.

Crosby man charged for Dayton robbery

DAYTON — Calhoun’s County Sheriff’s Office was busy Wednesday morning, July 22, when they reported a man who had been identified as a Crosby High School student had been arrested for an armed robbery.

An 8:00 a.m. call to the investigators that morning reported that night, a man had been identified as the suspect of an armed robbery at a Dayton country store.

And then, the man arrived on the scene.

ACROSS — According to reports from the Sheriff’s office, an early morning, single vehicle accident on Wednesday in Crosby that killed one woman after she lost control of her vehicle.

The victim identified as Marlene Hawkinson was driving a 2004 Nissan Altima traveling north in the 6600 block of Dallas Road in Crosby Texas at approximately 5:09 a.m.

May 26: Yoga: Mondays at 9 a.m. Take this opportunity to practice and also by forming combinations of cards.
May 29: Senior Pinochle: Thursdays at 6 p.m. Players score points by trick-taking and also by forming combinations of cards.
SHELDON ISD: Coach Price featured in ‘Texas Coach Magazine’

Coach Don Price

A coach from Sheldon ISD is featured in the August 2015 issue of Texas Coach Magazine. Tier Price is the head football coach for the C. E. King High School Knights. He covers sports decades, starting back in 1976 at Leweyly High School in Texas City. He came to Sheldon ISD in 1988 and has been coaching the Knights ever since.

Price has inspired many throughout the years, including the author of the article, Keith Goade. The piece, titled “The Price and My Coach,” remembers what Goade learned from Price and other coaches while playing football in Horseshoe, TX from 1986-

“We are blessed to have Coach Price working for us. He continues to mold young men,” said Ben Trumbull, Athletic Director and Physical Education. “He is also shaping the next generation of coaches who will continue teaching the game of football.”

The article can be read in the August 2015 issue of Texas Coach Magazine.
Believe it or not in all this heat and sprawl this time for fall crops and our little garden out back is still running. Nothing but leftover summer tomatoes and a big beautiful blue Bell variety of broccoli from the spring crop. The tomatoes are going but lots of green on top with some blossoms and with an occasional early morning drink hopefully they will make it. There are several bags of mulch around the raspberries so we hope to hold moist there. The chile pepper plants are coming on, at least one is loaded with the little fiery berries.

We took a road trip to the Carolinas in June making our usual pit stop from the fall crop and our little garden out back is still running. Nothing but leftover summer tomatoes and a big beautiful blue Bell variety of broccoli from the spring crop. Rep. Hernandez responds to Legal Argument on Issuing Birth Certificates

AUSTIN, TX - Last Wednesday, State Attorney General Ken Paxton's office filed the appeal for the Texas Department of State Health Services, defying the agency's unconstitutional acts of refusing to accept foreign passports or consular documents as acceptable parent identification to the parents of American-born children.

“The Department’s ID policy is a violation of the 14th Amendment, and paraphrase American-born Children,” Hernandez said. “Any legal argument the department is using is not enough, and seeking the dismissal of a lawsuit resulting from it cannot possibly pass muster in court. The state is simply wasting taxpayer money on frivolous litigation.”

“Like the Governor’s lawsuit against the President’s executive action last year, leadership has once again chosen the wrong side of history, choosing to divide and harm hard-working Texas Hispanics seeking the fundamental constitutional rights of due process and equal protection that the Texas Constitution guarantees,” Hernandez said. She represents District 143 in the Texas House of Representatives and is serving her fifth term. She serves on the House Committee on Judiciary and Civil Jurisdiction and the House Committee on Pension and Retirement Systems of Houston, Channelview, Channelview and the cities of Glenn Park and Jacinto City.

Rhodium plating of “dipping” in an electrochemical reaction done on yellow gold or white gold (not made out of silver) is white. Rhodium plating lasts from the silver. How fast the rhodium wears off depends upon how hard your body chemistry, and you are on your jewelry, the type of metal, and the rhodium plating. For example, plating will wear off most quickly on rings, cufflinks, earrings and necklaces, because ring touch and hit surfaces more. You’ll know your rhodium plating has worn thin when the back of your ring looks a bit dull, and as of yellow on the tips of your fingers. Rhodium plating lasts an average of 3–5 years on a ring you wear daily. Although the length of time can be much shorter or longer. On the other hand, you may never need to rhodium plate your silver, and certainly you can rhodium plate yellow gold… but I don’t recommend it. When the rhodium wears off just a tiny bit, you’ll see the bright yellow underneath. After the frustration of time and money spent in replating and replating, you won’t have to polish this rhodium plate your necklace and earrings again!

Rhodium-plating lasts an average of 3-5 years on a ring you wear daily, although the length of time can be much shorter or longer. HINOJOSA, Continued from Page 1
budget more transparent and available to the public, reducing taxes for seniors, collecting more overdue back taxes, and increasing street repairs.

Hinojosa also wanted our Galena Park police officers to ride along with the code enforcement official, in an effort to clean up the city to a greater extent.

He pointed out that City Hall must listen more closely to the citizens and their needs. He suggested block walking was a good way to meet and listen to the public. He also thought citizens had more responsibility to ask some time of their officials, and force more transparency and accountability.

Asked about the change in ethnicity of the city, he encouraged using the parks to let people mingle and meet, and let the city be more inclusive.

He wanted food trucks, music and events in the park.

The next Council meeting will be held on August 4, and Hinojosa will be sworn into office and take his turn at working with the other council members and the Mayor.
