SHOLEND ISD
C.E. King High School Class of 2017 Senior Parade

Graduating seniors at C.E. King High School spent the better part of the day loading and unloading off of nine school buses that toured them around the other campuses throughout the district. The purpose of the Senior Parade was not only for seniors to possibly visit their elementary and/or middle schools one last time...but to also act as role models for Sheldon ISD youth.

NORTH SENIOR – The Rotary Club of North Shore hold their annual Cinco de Mayo Fish Fry and Crawfish Boil, and had thousands either turn out for the event, or come and pick up dinners.

By Allan Jamail

STUDENTS’ MOTIVATION

The Rotary Club of North Shore held their annual Cinco de Mayo Fish Fry and Crawfish Boil, and had thousands either turn out for the event, or come and pick up dinners.

By Allan Jamail

Behind the Star

Tentative visitation schedule has been announced and accepted by the Rotary Club of North Shore. This is the first 14 people who sign up now may ride Jacinto City van. Otherwise, leave from Channelview HS at 3:00. Both teams have a 6-1 playoff record.

By Allan Jamail

CLUB PRESIDENT Kim Gonzalez, helped by D_hour_152016 and Fysh5 beginnings, threw open the annual Fish Fry for this year’s graduating class. The event was a huge success and benefited many local youth groups.

By Allan Jamail

There are four major parts to the event: a frozen draw raffles, to win a new Toyota truck or 18 other high value prizes, crawfish and crawfish dinners, a live auction, and a silent auction.

By Allan Jamail

The chairman for the event is always the president-elect, which this year is Adam Land of Capital Bank. Last year it was Kim Gonzalez, who is now president. All 75 members of the club assist with the execution of the all-day event in some function.

Clean up your Town

Highlands and Baytown area, if you have heavy trash that your regular trash company will not pick up, or the entire block of the street it seemed every other house had items that had sit there in front of their homes forever, like old TVs and the old contact Commissioners Jack Mormans office at 713-755-6220.

Trail Ride illustrates local Western heritage on US 90

TRAIL RIDING IN CROSBY is becoming more of a common site, as horse owners organize riding events to appreciate the rural beauty and tranquility of the Crosby area. These riders were recently seen near U.S. 90, illustrating the point that Harris County is not far removed from the days of western lore.

Two county buildings renamed for renowned locals

NORTHEAST HARRIS COUNTY – The Baytown Courthouse Annex #8 and the Crosby Branch Library are undergoing re-naming following decisions by the Harris County Commissioner’s Court.

The Crosby Branch Library will become the Edith Faye Cook Cole Harris County Branch Library as soon as lettering can be accomplished based on a ruling on May 23. The Commissioner’s Court also approved the Courthouse to become Clinton F. Greenwood Courthouse after 20-year Chief Deputy Clinton Greenwood, the Precinct 3 Deputy that was murdered near the steps of that courthouse on April 3 in his designated parking space.

As reported on April 6 in the Star-Courier, re-naming the library in Crosby in honor of one of the outstanding leaders in bringing a public library to Crosby will be remembered by naming the local library in her honor. According to Head Librarian Diane Barker “It is in honor for her support of the community.”

A re-naming ceremony is planned for the month of July; vendors and contractors will have to schedule the changing of all signage.

Families take to the stage at San Jacinto College Spring Commencement

PASADENA, Texas – The 2017 San Jacinto College Commencement was a final moment for many students and their parents and their children walked across the stage at NRG Stadium on May 13, 2017, to receive college degrees and certificates for the most part of their lives.

“My father always told me, ‘It’s not where you start but where you finish,’” said Rebekkah Aguilar, who graduated with her associate degree in medical laboratory technology and a job lined up at Baptist Medical Center. Rebekkah Aguilar graduated with an associate degree in medical laboratory technology and plans to transfer to a university.

“My first and last class was the same; I’m going to miss that,” said Rebekkah Aguilar.

“My senior year, I went to college during the week and worked in a lab during the night. When Rian graduated we were at his graduation and it was a different experience for me,” said Rebekkah Aguilar.

“A great way to celebrate what the student has accomplished is to share their story with the community,” said Rebekkah Aguilar.

“Having a family, they are there for you, and they know what it takes to get to this point,” said Rebekkah Aguilar.

Steven Taff (right) received his associate degree in construction management, while his daughter, Rian Taff received her associate degree in paralegal studies on the same stage.

“I thought, ‘why not?’ I’ve been considering it for a few years now. I’ve been looking into it for a few years. I thought, ‘why not? I’ve been waiting to do it for a few years, and this will continue my career and help me move up in the ranks of management,” said Steven Taff.

So in addition to his daughter, Rebekkah Aguilar, Rebekkah Aguilar will attend San Jacinto College this coming fall. Steven Taff was inducted into the Lambda Rho Chi (LRC) national honor society and will soon take her National Association of Legal Assistants (NALA) exam. She plans to work in a law office and earn her associate degree in paralegal studies on the same stage.

“I think kids need to understand that they can do anything they want to do. They can succeed in whatever they want to do. They can move up in the ranks of management and help me move up in the ranks of management,” said Steven Taff.

“Having a family, they are there for you, and they know what it takes to get to this point,” said Rebekkah Aguilar.

Sun Protection Myths And Facts

(NAPS)—Sunscreen is an important part of protecting your skin. However, some information about sunscreen can be confusing, making it difficult to know how to best protect the skin you’re in. Seeking shade when the sun is especially strong (from 10 a.m. to 2 p.m.), wearing clothing that protects your skin as well as hat, sunglasses, and separating myth from fact about sunscreen are three key steps you can take.

Here are a few facts on sun care you should know:

Myth: Skin cancer is not a common problem.
Fact: In 1 Ameri can, 1 will be diagnosed with skin cancer in their lifetime.

Myth: Protecting my skin from the sun is time-consuming and not worth the trouble.
Fact: The best solution is a simple solution to address this problem. You should apply sunscreen regularly and reapply sunscreen if you take a short amount of time in the sun.

Myth: Coppertone sunscreen labels can’t be trusted.
Fact: Coppertone’s commitment to the quality, safety and effectiveness of its products is evident when you see it melt the140-day session deadline. At the customary end-of-session rush of bills. Also, the budget may seem, the bulk from both the House and Senate in order for the governor’s desk. But as the governor’s Mansion was lit the House is aware that the Legislature in 1926 for forestry. The Texas A&M Forest in Senate District 4, which

Sunscreen SPF 15 or higher can decrease the risk of skin cancer.

Myth: I only need sunscreen for summer sun exposure. You should be using sunscreen for every sun exposure, regardless of weather conditions.

Myth: Coppertone should be used only for minor treatments.
Fact: Reapplications of Coppertone after 80 minutes or sweating immediately after towel-drying and at least every two hours is important to enhance sun protection.

Myth: I don’t get a lot of sun or my skin doesn’t burn.
Fact: Incidental sun exposure is the kind of sun exposure that you may not be aware of. It builds up over the years from brief everyday activities, such as dog walking and commuting. Sun damage occurs even when skin doesn’t turn red, and all skin type carry some risk of skin cancer.

Myth: There’s SPF in my makeup or moisturizer I’m protected from the sun.
Fact: Although makeup and moisturizers contain sunscreen with adequate SPF levels, the products typically don’t provide the same amount of protection because they are generally not reapplied. People also don’t take into quantity those products they don’t apply enough to fully protect their skin from the sun.

Myth: When it comes to sunscreen, all products are equal.
Fact: At Coppertone, the company that produced the first commercial sunscreen in the U.S. in 1944, researchers are always hard at work creating innovative, safe and effective sunscreen products. For example, Coppertone just introduced a new sunscreen formula with patent-pending Ciopigment Whipped Sunscreen, that feels great on skin while providing trusted broad-spectrum protection.

As mosquito populations climb, the state of Texas encourages every public citizen to help with public health to ensure mosquito-borne illness, by preventing mosquito bites and reduce the risk of mosquito-borne diseases.

Sunscreen SPF 15 or higher can decrease the risk of skin cancer.

Creating innovative sunscreen products is an important part of the Coppertone mission.

The Texas Workforce Commission on May 16 announced the state’s economy expanded in April with the addition of 4,400 seasonally adjusted non-farm jobs, but the seasonally adjusted unemployment rate remained unchanged at 5.0 percent.

Employment in the education and health services industry recorded the largest gain for the month with 5,300 jobs added, while manufacturing employment grew by 3,100 jobs.

The Amarillo Metropolitan Statistical Area recorded the month’s lowest unemployment rate among Texas MSAs with a non-seasonally adjusted rate of 3.0 percent. Texas was one of 19 states with a non-seasonally adjusted rate of 3.0 percent, which followed a record $2.7 billion medical and human services to support a statewide prohibition. Accordingly, by time for Texas to join the 46 other states that already have banned these foils, habit,” Kaffen said.

In order to be considered for the the 46 other states that already have banned these foils, habit,” Kaffen said.

DPS to hold Memorial Day Service during Police Week

The Texas Department of Public Safety on May 16 held a memorial service in conjunction with National Police Week to honor the state troopers, special agents and Texas Rangers who have lost their lives in the line of duty.

The Texas Governor’s Mansion was lit with blue lights on May 17 to commemorate, as a sign of solidarity with the Dallas community, that deadly honored officers killed in the line of duty during a July 4th terrorist attack last year.

Jobless rate unchanged

said I could contact the City Secretary Mayra Gonzalez and she’d make the tour possible.

Tuesday morning May 23rd I called Gonzalez and she said I could go take the tour. I went to the closed community center and was met by Commissioner Barry Pond and Gustavo Mendez, a recreation department employee.

We entered the facility and I immediately could smell a musty odor. The appearance of the inside looked like a typical re-modeling job that was stopped in progress before completion.

I observed and photographed mold, termites, rotting supporting studs, dangerous electrical wiring in the breaker box, the broken emergency rear exit door to name a few things to make the place appear a very long ways from being used again.

I could have taken thousands of photos but my personal health was of a concern since my throat was already beginning to feel sore. I hope these photos will help everyone be better informed for I’m not involved politically to help or hurt anyone. I’m not going to point the finger or blame anyone for the disastrous condition I saw, that’s not my interest.

As a former mayor of Jacinto City I knew from my experience a mayor is first and foremost responsible for the health and safety of the citizens. No mayor should allow the citizens to enter the facility until it’s been inspected by a qualified inspector and declared safe for the public.

San Jacinto Pilot Club awards scholarships
