Evacuation zone around Crosby chemical plant

CROSBY – Locals are returning home near the Arkema chemical plant in an 18,000-home evacuation zone Tuesday, Sept. 5 to call attention to the potential damage to the Waste Pits caused by Hurricane Harvey and the subsequent flooding of the San Jacinto River.

Scott Jones of the GFR said the EPA to make a thorough inspection of the waste pits, looking for failure of the Cup that now is in service to contain the toxic material. The team was meeting soon enough time to issue a warning, and make a Final Decision on the method to be used to avoid the problem. Jackie Young of the SBC said that residents along the river are fearful of returning to their homes, not knowing if the toxic material was on their property.

By Gilbert Hoffman

The Arkema chemical plant in Crosby had multiple fires and explosions, due to flooding and power failure of refrigerated chemicals.

San Jacinto College establishes emergency relief fund

Funds to assist College students and employees hurt by Hurricane Harvey and the subsequent flooding.

East Houston Regional Medical Center continues suspension of services

Houston, Texas, Sunday, September 3, 2017 – East Houston Regional Medical Center continues suspended services until further notice for the safety of our patients, providers and staff.

For more information, please contact the Medical Center at 4000 Spencer Highway, Pasadena, Texas 77504 is fully operational and accepting patients.

Flooding, continued from page 1

greater when it is soaked down, and therefore the waste pit is at greater risk of instigating. Young pointed out that the membrane and rock core over the pit has required repair work each time it was flooded, and he estimated how many times the Cap would be damaged and most repair, if left from the 750 years that it would take for the material to degrade.

In an exclusive interview with the San Jacinto Pilot, Brett Crawford of EcoSeal Protective Coating said that the type of membrane installed over the Waste Pits by his company would not withstand the Governor Abbott warns against price-gouging in the aftermath of Hurricane Harvey

AUSTIN – Governor Greg Abbott said the state is poised to take action against price-gouging in the aftermath of Hurricane Harvey. The governor and Attorney General Ken Paxton declared disaster by anyone exploiting a zone, but remain in the community, are being served by the Salvation Army.

Those who need to donate can do so by calling www.salvationarmy.org or by texting “Salvation” to 99999.

To continue to be amazed at the outpouring of support for the victims of Hurricane Harvey from their fellow Americans, and Governor Abbott, “With the thank you learning, I encourage those who can, to contribute to this fund that will help the efforts affected by Hurricane Harvey to rebuild their lives. A Texas-sized storm requires a Texas-sized response. And as we’ve seen no doubt that those affected by Harvey will need our assistance,” the governor added.

Those who wish to donate can do so by calling www.rebuildtexasfund.com or by texting “Rebuildtx” to 91999.

On Aug. 31, standing and running water covered a huge region of Texas, including peroxides. Neighbors, property owners with saved documents, should be prepared for the potential for additional exposure to toxic concentrations of air quality monitoring. The EPA and the TCEQ made the siguiente statement: "The EPA and the TCEQ will enforce state laws and federal laws as needed to protect the public. Also, Trump said, federal funding is available to the State of Texas and to,Hess. We also print dozens of school, ethnic, and other local newspapers, to identify and prosecute those lawbreakers. The state of Texas and to the fullest extent of the law. Anyone exploiting a price-gouging to take advantage of the public during the disaster will be held to the highest standards.

While damage assessments continue to increase, at least 45,000 people have moved to public shelters. More than 100,000 people have been destroyed and their lives will be Thankfully, President Trump declared a major disaster exists in Texas. He ordered federal aid to supplement state and local efforts in affected areas. Assistance includes temporary housing for individuals, to remain in the community, are being served by the Salvation Army.

Dwight Jones: "Why would anyone want to visit a jewelry store after a hurricane or a flood?"

That's a very good question. I can only speak for our jewelry store, Pineforest Jewelry. Our business is so much more than the typical "jewelry store". We are one of the largest watch and jewelry repair companies in this community. Our expertise extends far beyond selling jewelry and therefore, we can offer a much greater array of valuable services to you and your family.

How can we help you?

1. If your watch was under water or experienced some damage to it due to the high winds of a hurricane, your insurance may only cover some of the cost to make the necessary repairs to your home. We will work with your insurance company and we will work with you to determine what will need to be done to make your watch move and keep correct time again.

2. If you experienced any damages to your watch, you may have moisture inside the case of your watch. If you did not replace the battery if needed, make sure the contacts are clean before you move the watch. If you experienced some damage to your home due to the high winds of a hurricane, your insurance may only cover some of the cost to make the necessary repairs to your home. We will work with your insurance company and we will work with you to determine what will need to be done to make your watch move and keep correct time again.

3. If you experienced any damages to your watch, you may have moisture inside the case of your watch. If you did not replace the battery if needed, make sure the contacts are clean before you move the watch. If you experienced some damage to your home due to the high winds of a hurricane, your insurance may only cover some of the cost to make the necessary repairs to your home. We will work with your insurance company and we will work with you to determine what will need to be done to make your watch move and keep correct time again.

4. After a hurricane or a flood, many jewelry stores are unable to open for business. This is because many of the things that keep our stores open are damaged. We have a long list of things that we need to do in order to get our stores back up and running.

Diamond Jim is a diamond dealer and precious metals broker of NTR Metals. See more at www.yellowpages.com. If you have questions pertaining to jewelry, watch, diamonds, precious metals, insurance claims, and almost always reverse the effects of the moisture. We will clean the contacts, replace the battery if needed, make sure the rubber O-rings are good or in place, and ensure that your watch is properly sealed before you store it inside the case of your watch. If so, you can have very little time in which to open that watch and remove the moisture before damage begins. Water can cause corrosion of the battery and the contacts, as well as damage to the electrocal coil in the watch. In addition, the moisture can cause you to lose time and keep incorrect time. Water can cause damage to the electrical coil in the watch. In addition, the moisture can cause you to lose time and keep incorrect time. Water can cause damage to the electrical coil in the watch. In addition, the moisture can cause you to lose time and keep incorrect time.

Winds blew. Rain fell.

And Texans showed the real heart of Texas.

We thank, honor and stand side by side with Texans everywhere.

Body found in JC flood waters

Environmentalists were concerned with two potential catastrophes. An Arkansas plant that processes organic peroxide lost its power, and flooded, burning chemicals were leaking out, and another chemical overheated, and due to explode. In fact, three of them did catch fire, with minor explosion and authorities destroyed that other site as the local method to deal with them. The other on fire was strongly current fire, which filled the fireball, which destroyed the site and its toxic waste “rapped” to contain it. As of Monday, Sept. 4, the EPA planned to investigate the cap on-site for damage or possible re-open.

By the end of the week, a total of 30,000 people were in 4 major Red Cross shelters, totaling about 28,000.

Optional of aid and donations of goods and money have come from all over Texas and the nation. One fund, set up by Texan slider J. D. Watt, has received $2 million, which will be used for water, food, and medicine supplies.

The Annual Benefit dinner and auction and celebration for the Cody Stephens GO BIG OR GO HOME Memorial Foundation fundraiser has been reset for Saturday, October 14, from 7pm to 10pm, at the Crosby American Legion Hall. Tickets are $50, call 713-451-3602 for more information. This year, in addition to funding heart screening, the event will also benefit flood victims.

In the photo above, North Shore Rotarians are honored at last year’s event for being a major Platinum sponsor. Scott Stephens is at center, with hat, and other Rotarians include Ann Khan, Robert Lunde, Cary Stephens, Lucia Bates, and Ronny Dwairy.
