would not comply with the new ordinance because the utility bill had to be in his name for a year prior to filing to run. Humphries then went and purchased a utility bill with his name and address on it because of a new ordinance requiring the identification of the justice system and her demonstration and professional achievements earned her the Texas Bar Foundation’s recognition of her outstanding contributions to the legal profession.

Former GP Police Chief arrested

Charged with Sexual Assault

Galena Park, TX. – February 20, 2018: Jamal Humphries appearing at the Galena Park City Hall carries a bag with a pencil and paper. He is now on the May ballot.

by Alabama Daily News

Humphries said he didn’t have a utility bill with his name on it because he’s 19 years old and living at his parent’s home while going to college. He said he explained this to the clerk but again was told he needed a utility bill with his name on it. Humphries then told the clerk he had his mother come there and transfer her water bill into his name but was told then that would not comply with the new ordinance because the utility bill had to be in his name for a year prior to filing to run. Humphries have won and purchased his Galena Park high school grade transcripts with his name and address on it and presented it to the city and once again was told it wouldn’t be accepted because he had to have a utility bill with his name on it because of the ordinance. All of the above is informed his name might not be allowed in the ballot request delayed.

POLITICAL ISSUES

Galena Park candidate ballot request delayed

By Allan Jamail

Galena Park, TX. – February 20, 2018: Jamal Humphries appearing at two consecutive round meetings rooted his dissatisfaction in the delay it took to get his name on the ballot.

In early February Humphries a lifelong resident of the city went to city hall to file for city Commissioner Position 2. Upon paying the filing fee and presenting his Texas photo ID and his Harris County Voter Credentials with his Galena Park address on them he was informed his name might not be allowed on the ballot unless he can provide a utility bill with his name and address on it because of a new ordinance requiring that. Humphries said he didn’t have a utility bill with his name on it because he’s 19 years old and living at his parent’s home while going to college. He said he explained this to the clerk but again was told he needed a utility bill with his name on it. Humphries then told the clerk he had his mother come there and transfer her water bill into his name but was told then that would not comply with the new ordinance because the utility bill had to be in his name for a year prior to filing to run. Humphries have won and purchased his Galena Park high school grade transcripts with his name and address on it and presented it to the city and once again was told it wouldn’t be accepted because he had to have a utility bill with his name on it because of the ordinance.

Humphries tells city council he feels disheartened against. He is now on the May ballot.
Crosby Woman's killing of boyfriend under investigation

On March 1, around 11:52 a.m., Harris County Sheriff’s Office District 3 Patrol units were sent to the 12100 block of Myrtle Ave. in reference to a shooting. WCSO Patrol units and HCDR#5, the ambulance service for Crosby area, and found an adult male in the backyard of the residence with a gunshot wound to the chest. He was determined to be dead.

The incident has been referred to the Harris County Grand Jury for possible charges. The name of the victim has not been released pending positive identification.

The Harris County Sheriff’s Homicide Divi- sion is continuing the in- vestigation.

AUSTIN – Each year in Texas, more than half of drivers involved in alcohol- related crashes are between the ages of 17 and 20. With many college stu- dents and young adults heading to Spring Break destinations in the coming weeks, the Texas Depart- ment of Transportation’s “Plan While You Can” campaign reminds them to make a sober ride part of their festivities.

“Enjoy Spring Break, but do so responsibly,” said TxDOT Executive Director James Bass. “If you drink and drive, you run the very real risk of being killed or destroying your future and the lives of others. It’s re- sponsible and just not worth it.”

During last year’s Spring Break in Texas, there were 453 crashes in- volving young drivers who were driving under the in- fluence of alcohol. Those crashes killed 20 people and seriously injured another 48.

The “Plan While You Can” campaign includes a statewide tour featuring an interactive dodgeball game where participants are forced to avoid drinking “beach balls” as virtual drinks are added to the screen. As more drinks are added, participants experi- ence how drinking can slow their reaction times as on-screen avatars begin responding more slowly to their players’ movements. The experience will visit eight Texas cities during March.

While drivers under the influence of alcohol risk killing or seriously injur- ing themselves or others, they also face up to $1,000 in fines and fees, jail time and loss of their driver’s license. Visit SoberRides.org to find alter- natives to drinking and driving, such as:

• Designating a sober driver, or calling someone for a sober ride home
• Contacting a cab or ride-share service
• Using mass transit.
• Spending the night.

Judge Stephens holds the "Boys Rock 2 Life" camp

Judge Joe Stephens, in his courtroom setting, saw the need to reach out to young men to give them a different setting to address some of their nonacademic needs. Therefore, he is repre- senting a “Life Skills” camp for boys within his jurisdic- tion.

On February 17th, he held a one-day fun packed workshop, that addressed topics such as appearance, handling money, social skills and more. Other topics in- cluded Dressing, Personal Hygiene, Substance Abuse, Men of Honor, Law Enforcement, Success through Accepting Responsibility, Social Skills.

In commenting on his Boys Rock 2 Life Skills Camp, Judge Stephens said that mentoring youth early in life leads to positive youth development.

The camp was held at the Northshore Middle School. For information about fu- ture camp, contact Judge Stephens by phone (281) 328-1755 or email: cri.tax.jhinson@gmail.com.

 Jury Joe Stephens, center, with some of the mentors and instructors at the Boys Rock 2 Camp last Saturday.

in our community. In spite of the downturns in the downtowns the businesses have thrived. They spent Muffler King Bar 31 years and first, from the day they opened, they continued to help lose the most important.

Two women assaulted outside East Fwy, bar

Houston police are investigating the shooting that occurred during a Tampa Bay area bar about 1:15 a.m. on March 3, 2018.

According to Houston Police officials, an altercation occurred inside a bar located in the 11000 block of East Freeway (I-10 E) and continued into the street after the bar had closed.

A man suspect involved in the fight went into this truck, placed it into reverse and intentionally struck the two females, ages 22 and 22. He then fled the scene and abandoned the vehicle.

Paramedics arrived and transported the victim to the hospital with non-life-threatening injuries.

One woman sustained an injury to her head and left leg and the other woman injured her right leg.

Investigators were unable to determine if there was any possible victim of the robbery.

Arming teachers with mental health tools, not guns

The recent shooting at a Parkland, Florida, high school has spread the word of mental health conditions that children in our schools may be facing. Such conditions can lead to a more disastrous situation than the sight of another gun on a school campus. We believe that arming teachers is not the answer. There are options available.

A recent survey conducted by Mental Health America found that only one counselor is assigned to many schools in our state. Unfortunately, teachers are generally not trained to deal with these kinds of issues. However, if arming teachers is the single best solution to prevent such tragedies, we believe that arming teachers is not the answer.

The recent tragic events have made us realize that more needs to be done. We desperately need to adopt programs and policies that will promote the wellbeing of school students, and prevent the deviant behaviors of unbelievably violent school children. As a society, we need to address the needs of our children with behavioral health concerns, and as a school district, we as educators need to have experienced training to work with concerned state officials and parents. One of our programs that we believe is the most important is one that focuses on identifying children who have no idea of who they are.

The Texas State School Safety Center at Texas State University in San Marcos serves as a clearinghouse for those working in school safety and security information through research, training and technical assistance for K-12 schools and junior colleges.

Aubrey Paige
M.D.
Interim President and CEO
Mental Health America of Greater Houston

instead of helping identify, referring and other educators go through the same training, why not change the system, make it mandatory and fully visible to the public, S соверсили и оценить, а также арестовали, судимы ли. Вместо того чтобы улучшить систему, налагать на всех учителей, участвующих в оценке, и обеспечивать, чтобы эти решения были видны всем, мы воздаем учителям, которые делают это.

However, the system for preventing and early detection is not the answer. In our states, 6 out of 10 in our schools do not receive any mental health care. From the National Institute of Mental Health, we understand that 67.3% of young people suffering from depression and who are in need of healthcare, but unfortunately, only one counselor is assigned to many schools in our state. For a young person to continue to have another tragedy like this in our society, we need to ask ourselves the question: Is this the only way to protect themselves and others?

We need to address the needs of children with behavioral health issues, and of course, their families. We need more counselors and others with some having no behavioral health issues, and all students and educators from these communities.

We believe that arming teachers is not the answer. Our focus needs to be on improving the system, making it more reflective of current times, and yet, the World Championship Houston Athletics Association is about all the changes I have experienced. Houston brought through Magnolia Peak, a devolution to our lives as a community. Athletics Houston. Athletics Houston, second to none in the state.

This past year brought your involvement in campaigns from Senator Ted Poe and others regarding their concerns and decisions on crime and public safety. This will impact those of you whose primary concern is the March Primary Election just days away from your decision. In many states, the highest levels of candidates are examined in a single, important general election. However, Governor Greg Abbott introduced legislation that would ban the gun on campus. We believe that this bill would be a step backwards. Until this is overridden, we must be aware of the changes in our country. We need to take the time to review the consequences of which one support their efforts. We need to be bolder to vote for a change that will make a difference.

Perhaps the greatest gift of 2018 is to come from it, as we continue to learn from those who are in the elderly and electoral and educational institutions and be aware of the movement of research and getting involved in campaigns. During every election, there are opportunities to work with candidates, to understand the importance of being a voter and to ensure that one's vote is cast correctly.

This year, we cannot do this. With the upcoming primaries, we must listen to what others are saying, and we must do the same. We will continue to work with candidates, to understand the importance of being a voter and to ensure that one's vote is cast correctly.

USA: "Unhappiest" cities in the “Ten Happiest” and "Ten Unhappiest" cities were surveyed by the Bureau of Economic Research, a company based in the south. This is, of course, my opinion, for you could smell the roses more than others. The time to stop and smell our genuine compassion and our community lives in the south and extend the pace of our daily lives, happiness and perhaps happier than our friends up north. We have many reasons to be happy and perhaps happier than the northern half of our country. Work in the south is happier and perhaps healthier than many areas such as any nurse, character, service, the importance of being a responsible citizen along with the values of volunteering in the community. The desired outcome is to help prepare young men at an early age, to see the challenges that high school and college will encounter and beyond. We are supposed to begin and place more attention and experience that will generalize our purpose. According to Vanqua, this was the second time they’ve visited the health care facility. He said, ‘We can see the joy in the residents when we visit during Christmas time, taking gifts such as handmade cards, music, festive decorations, etc.’ Bryan said, ‘It was the 2nd time we’ve visited the 16 students based to visit the residents. Bryan Vanqua, a Physical Education teacher at the campus visited and said he started the Gentlemen’s Club in 2015-2016.
