GCCISD Kicks off 100th Anniversary at Three Back-to-School Convocations

By Bob Moos
Southwest public affairs officer for the U.S. Centers for Medicare and Medicaid Services

Your new Medicare card is coming soon. From now until April 2019, Medicare is mailing new cards to the more than 60 million Americans with Medicare. The 3.9 million Texans with Medicare will begin receiving their cards this month.

The new cards will no longer have your Social Security number on them. Instead, they have a new Medicare number that’s unique to you and will be used for your Medicare coverage.

Don’t worry. Your Medicare benefits will remain exactly the same. Without your Social Security number on your Medicare card, it can’t be read.

A recent federal law requires the removal of Social Security numbers from Medicare cards to help protect you from identity theft. Many people asked for the new safeguard, and Congress responded.

You don’t need to do anything or pay anyone to get your new card. If someone claiming to be from Medicare calls you and requests your Social Security number or other personal information, hang up and call Medicare at 1-800-633-4227. It’s a scam.

Likewise, if anyone tries to charge you a fee for the new card — or for promoting a “temporary” card until your new card arrives — that’s a scam, too. It’s another scheme to get your bank or credit card information.

Medicare will never call you uninvited and ask you to provide personal information to receive your new Medicare card. Medicare will send your card to the address you have on file with Social Security. So, if you need to update your mailing address, contact Social Security at ssa.gov/myaccount or call 1-800-772-1213.

Because of the many cards to be mailed, they’re being sent out in waves — several states at a time. Texans with Medicare will receive their cards over the next month.

When you do receive your card, destroy your old card right away. Doctors and other health care providers know the new card is here. Don’t return your old card. Don’t just toss it in the trash, where a crook can get hold of it. Cut it into small pieces so that your Social Security number can’t be read. Then start using your new card.

For years, people who mistakenly gave out their Social Security numbers have fallen victim to identity theft and discovered their bank accounts emptied. The redesigned Medicare cards should help prevent that.

Look for your new card in your mailbox soon. If you have any questions or need help, visit medicare.gov or call 1-800-633-4227.

**Galena Park ISD Students attend Lone Star Leadership Academy**

One thousand, one hundred twenty-one outstanding 4th-8th graders participated in Education in Action’s summer 2018 Lone Star Leadership Academy camps. These young leaders were selected for the Lone Star Leadership Academy camps based on demonstrated academic success and leadership ability, an educator recommendation, and involvement in school/community activities. The participating students, representing communities across Texas, traveled to Dallas/Fort Worth (4th & 5th graders), Austin/San Antonio (5th, 6th & 7th graders), and Houston/Galveston (6th, 7th & 8th graders) to take part in the camps. The Lone Star Leadership Academy experience provides a unique opportunity for outstanding students to learn about Texas leaders and what it means to be from the Lone Star State. Participants discuss what they learn, complete problem-solving and decision-making simulations, exercise creativity, and practice presentation skills in Leadership Groups. In addition, participants have fun meeting other outstanding students and making new friends while learning about Texas history and exploring the Lone Star State. Participants leave the camps with a wealth of information to supplement what they are learning in school.

Jayla Gonzalez (Cobb Sixth Grade Campus) and William Knowles (North Shore Middle School) attended the leadership camp at NASA JSC in Houston/Galveston, where they toured the Johnson Space Center, went on a boat tour of Galveston Bay with a marine biologist, and visited the San Antonio Zoo and Natural Science Museum. Jaquelyn Hernandez (Galena Park Middle School), Arianna DeLeon (North Shore Middle School), and Casey Wenner (Woodland Acres Elementary) attended the Leadership camp in San Antonio/Austin, where the students visited the Texas State Capitol and the Supreme Court of Texas, went bat watching on the Lone Star Riverboat, and visited the Alamo.

GPISD is so proud of these students for being leaders on their campuses!
The systemic pessimism of high-quality data, flawed algorithms, and the refusal to rely on them. Why? Forecasting to communicate the impact. Human meteorologists are not equal. In the case of weather forecasts and warnings, it is beneficial, whereby humans and computer models interact, and then our overconfidence in interpret and communicate the impact. Indeed, a report conducted by independent industry tracker ForecastWatch, reconciled that the accuracy of top global weather forecast providers, attending a three-day conference in Texas, Mexican farmers, ranchers, workers, and businesses.

Forewarned is forearmed. The Austin White House added, "In a few hours, forecasters, the better the information and data on hand, the higher the accuracy. Computers, and we hope this new deal will be good for the Texas economy. Canada is our second-largest trade partner, and I’m hopeful that negotiations with Canada will be equally productive." The White House released a transcript of President Donald Trump and President Enrique Pena Nieto of Mexico discussing what a new agreement between the two countries might require. Trump said Wednesday that Mexico must change its laws to "a more fair distribution of tax revenue on the border and in the south," he said. "We hope the two countries can come to an agreement that will meet Canada’s needs and join this agreement as a new partner in our free trade agreement." The White House is hopeful that negotiations with Canada will be equally productive.

ForecastWatch, an independent industry tracker, has found that weather forecasts are highly accurate. Computers, and we hope this new deal will be good for the Texas economy. Canada is our second-largest trade partner, and I’m hopeful that negotiations with Canada will be equally productive.

ASK THE EXPERT

ASK DIAMOND JIM

Diamond Jim: “Is it expensive to have my jewelry cleaned, inspected or repaired?”

Jewelry repair is not expensive, but neglect is.

As a jewelry professional, I am often asked about cleaning, inspecting and repairing jewelry. Here’s some really good news, we will gladly clean your jewelry and inspect it at no charge. In the event your jewelry does need some minor repair work, it’s usually not expensive at all. In fact, having an annual inspection of your jewelry could save you hundreds if not thousands of dollars later. Neglecting what is now a small needed repair will most likely become a large repair job later. Have your diamonds or gemstones set in your ring or your chunky breaks and you lose the pendant all together.

Pinecrest Jewelry invites you to come in and let our expert staff clean and inspect your jewelry at no charge. We have two custom designed and professional cleaning machines available 5 days a week. Thousands of dollars in our vaults, our jewelry repair area alone has a combined expertise of over 65 years in the jewelry industry. Your staff of experts will inspect every item from your jewelry to jewelry repair to restoration of your family heirlooms. The difference with a laser repair is that the heat is extremely focused and the weld extremely strong. With a laser we can repair almost any metal, even the new titanium eyeglass frames. Often we can usually repair a damaged item without removing the gemstones. We offer this new laser technology to ensure we can provide the best care for our customers. Let us inspect your jewelry before you experience any stone loss or further damage. We also provide a 1 year warranty on any repairs we perform.

Bring in your jewelry for a free cleaning and a free on-site evaluation by our repair expert, Mr. Gary. It’s like Diamond Jim and Gary often say... “Jewelry repair is not expensive, but neglect is!” Treat the care of your jewelry to the repair experts at Pinecrest Jewelry.

Diamond Jim is a diamond dealer and precious metals broker of all the precious metals. If you have precious metals in your jewelry, annexes, discards, precious stones, precious metals, and other precious related in the jewelry industry, email us and find out more.

The following dates will be assocated with the Highland Communities.

Man wanted in fatal shooting of Channelview mother

Jodie Marie Green

Authorities are searching for a man wanted in the shooting death of a mother of three that took place last Saturday evening about 9 p.m. in the 17,000 block of Meadow Street, near Station 83. The victim was identified as Jodie Marie Green, 36, both were attending a party at the 7 Tower in Channelview for real tidles. The shooting took place in the parking lot of the club. Witnesses said that the two got into a personal argument, with Green dshlcking herself. Anyone with information is asked to call HCSO homicide, 713- 467-3000.

Man shot to death by authorities

The accident occurred on I-10 about 2 miles south of the East Freeway at approximately 1 a.m. The victim, a 19 year old male, died on the scene, authorities said that a black Jeep was driving up to the 10 lane, to about 1 a.m. the accident occurred on I-10 between Hiram Clarke Dr. Authorities said that the Jeep had slammed into the back of a van collecting coal, completely destroying the car. The crash caused the fire to the van on the shoulder. Coal dust spilled all over the freeway, several hours while it was investigated. Officials did not detect any serious injuries or the jeep driver, cause is not known.

COMMUNITY WATCH

One killed in crash on I-10 East Fwy.

An early morning accident last Wednesday, early last month at the East Freeway, resulting in the death of a 19 year old man, was on the shoulder. The accident occurred on I-10 between Hiram Clarke, which caused a car to roll over, another killed in the crash on the shoulder. The investigation continued on I-10 between McAllister. Interchange, authorities said that a black Jeep had slammed into the back of a van collecting the coal, completely destroying the car. The crash caused the fire to the van on the shoulder. Coal dust spilled all over the freeway, several hours while it was investigated. Officials did not detect any serious injuries or the jeep driver, cause is not known.

North Shore Mustangs kicked Katy Tigers 35-21

By Allan Jamail

Katy, TX August 31, 2018 in less than a year after the Katy Tigers knocked the Galena Park Northshore Mustangs out of the 2017 High School Regional Semi-finals, the Mustangs defeated the Tigers 35 to 21 Friday night. Spoiling the Tigers opening season game, Northshore gave them their first ever loss in the new 72 million dollar stadium named Legacy.

Katy quarterback Bronson McClelland acknowledged the tough loss but seemed confident the Tigers can still win the state title this year, which means they'll beat Northshore if they meet again in the playoffs.

Mustangs sophomore quarterback Dematrius Davis completed 78 percent (14-18) of his passes, to receivers Ajani “AJ” Carter (touchdown), Chance Pillar, Shadrach Banks, Zorhan Rideaux and running back Zach Evans.

Zach Evans the Mustangs junior running back led the offense with 4 touchdowns covering 20 yards per carry with 15 carries for 150 yards, followed with runs from QB Davis and running back John Gentry.

After the game, North Channel Star writer Allan Jamail asked Evans how he felt about his performance and he said, “I contribute my successes to the offensive line. We still need to improve and when every player executes as a complete unit we’ll see an improvement. We need to correct our mistakes made tonight, that was only game one of the season, we’re 1 and 0.”

Katy’s four-star senior running back Deondrick Glass as a junior was named District 19-6A Offensive Player of the Year and who’s sought after by every major college in the nation was kept scoreless by the swarming Mustang defense.

Mustangs Zach Evans goes over-the-top of his powerful offensive line to score one of his four touchdowns in defeating Katy 35 to 21.

Katy, TX August 31, 2018 in less than a year after the Katy Tigers knocked the Galena Park Northshore Mustangs out of the 2017 High School Regional Semi-finals, the Mustangs defeated the Tigers 35 to 21 Friday night. Spoiling the Tigers opening season game, Northshore gave them their first ever loss in the new 72 million dollar stadium named Legacy.

Katy quarterback Bronson McClelland acknowledged the tough loss but seemed confident the Tigers can still win the state title this year, which means they'll beat Northshore if they meet again in the playoffs.

Mustangs sophomore quarterback Dematrius Davis completed 78 percent (14-18) of his passes, to receivers Ajani “AJ” Carter (touchdown), Chance Pillar, Shadrach Banks, Zorhan Rideaux and running back Zach Evans.

Zach Evans the Mustangs junior running back led the offense with 4 touchdowns covering 20 yards per carry with 15 carries for 150 yards, followed with runs from QB Davis and running back John Gentry.

After the game, North Channel Star writer Allan Jamail asked Evans how he felt about his performance and he said, “I contribute my successes to the offensive line. We still need to improve and when every player executes as a complete unit we’ll see an improvement. We need to correct our mistakes made tonight, that was only game one of the season, we’re 1 and 0.”

Katy’s four-star senior running back Deondrick Glass as a junior was named District 19-6A Offensive Player of the Year and who’s sought after by every major college in the nation was kept scoreless by the swarming Mustang defense.
